Angel rays  
I was lost and, now I'm found..  
You turned my whole world  
And I know you always stay  
But, a minute in the dark  
I kneel and pray  
Angel rays

When I lost you, I couldn't face the reality  
That everyday we spent together couldn't be for  
eternity, yea yea  
I lost my breath, I couldn't say goodbye  
Up until the last time I tried, I could tell you  
I couldn't tell you how much I need you

Angel rays  
I was lost and now I'm found  
You turned my whole world

My whole world around  
And I know you'll always, you'll always stay My sweet,  
my sweet angel rays

When I think of you  
I don't cry anymore  
Now I know why, now I know why  
I see your smile everyday  
In the eyes child

Oh angel rays  
I was lost and now I'm found  
Hey now that I've found you  
I won't let you down  
Angels rays  
But, a minute in the dark  
I kneel and pray

For my sweet angel rays
