Abandon ship, abandon hope
We are never what we show
A cold heart for my weakest moments
Such fragile lives for the weaken
Come on

Abandon hope, abandon dreams
Cause things are never what they seem
A blind eye for my weakest moments
Such fragile lives we are leading

And I heard from the satellites
The static we hear
The ringing of fear
We are who we are
And were changing
Yeah

Imagine Earth from outer space
Spinning faster, changing shade
A cold heart for my weakest moments
Such fragile lives we are leading

And I heard from the
The static we feel
The proof that it's real
We are who we are
And we're changing

I walk to the edge
Watch the sun burning red

And I know from the saddest songs
The words that we hear
They help us to steer
We are who we are
And we're changing

And I know from the satellites
The static we hear
The ringing of fear
We are who we are

And we're changing
Yeah
