

Meriwether

"Body Like Hell"

Visit "[Body Like Hell](#)" on MotoLyrics.com

She's not honest with herself
She's got a body equipped to kill
She's got the motives and we got the time
She's got a body that blows my mind

It's easy to see what she's doing to me
She's got a body like hell cause it's on fire
It's a million degrees, it's a violent disease
She's got a body like hell cause it's on fire

She's a dirty little girl
She's got a body that fucks my world
She's got the motives and we got the time
I undress her with my eyes

It's easy to see what she's doing to me
She's got a body like hell cause it's on fire
It's a million degrees, it's a violent disease
She's got a body like hell cause it's on fire

Every time I see her face I think we should get
acquainted
I cannot believe my eyes now, it feels like masturbating

Awe hell yeah, girl
You know I want your body, baby
And I want it real bad

It's easy to see what she's doing to me
She's got a body like hell cause it's on fire
It's a million degrees, it's a violent disease
She's got a body like hell cause it's on fire

It's easy to see what she's doing to me
She's got a body like hell cause it's on fire
It's a million degrees, it's a fucking disease
She's got a body like hell cause it's on fire
