Baby girl,  
Do you ever think about me  
When you're running round,  
And you're down on your knees

Cuz I don't care  
Exactly what it is that your thinking about  
When your thinking about me

Cuz you've had everything you've ever wanted  
But you're not happy  
You've had everything you've ever wanted  
Cuz you don't have me

You can have it if you want it, come and get it  
You can have it if you really wanna have it

Every time I see your face  
I vomit on the pavement  
And I don't put you in your place,  
They do it in the papers

And every single boy and girl  
Will ask you what your name is  
You can tell them Bitch from Hell  
Cuz that's what made you famous

Hey!

Baby girl,  
I see you standing there  
You're tripping on the dance floor,  
You need to drink some more

Baby girl,  
I see you standing on the bar  
Just like the band whore,  
That we all knew you were

Cuz you've had everything you've ever wanted  
But you're not happy  
You've had everything you've ever wanted

Cuz you don't have me

You can have it if you want it, come and get it (Hey,  
hey, hey, hey)

You can have it if you really wanna have it (Hey, hey,  
hey, hey)

Every time I see your face  
I vomit on the pavement  
And I don't put you in your place,  
They do it in the papers

Every single boy and girl  
Will ask you what your name is  
You can tell them Bitch from Hell  
Cuz that's what made you famous

Oh!

You can have it if you really wanna have it  
You can have it if you really wanna have it, baby  
You can have it if you really wanna have it  
You can have it if you really wanna have it  
You can have it if you really wanna have it!

Every time I see your face  
I vomit on the pavement  
And I don't put you in your place,  
They do it in the papers

Every single boy and girl  
Will ask you what your name is  
You can tell them Bitch from Hell  
Cuz that's what made you famous  
That's what made you famous!
