"Natural High"

You stayed with me through thick and thin,
Watched me lose, you watched me win.
You picked me up off of the ground.
You never one time let me down.
And you put me on a natural high,
And I can fly, I can fly.
I was drowning in a sea of make-believe,
As helpless as a falling leaf.
You gave your hand to me that day,
And you did it, 'cos you're made that way.
And you put me on a natural high,
And I can fly, I can fly.
Instrumental break.
You always seem to let your feelings show,
You love me and you let me know.
Darling just remember these three words:
I love you, I love you.
And you put me on a natural high,
And I can fly, I can fly.
And you put me on a natural high,
And I can fly, I can fly.
