On the phone, in the car,
Iâ€™m wondering where you are.
Youâ€™re all alone, and youâ€™re a star,
Iâ€™m so far from where you are.

The letters wrote,
In pen and ink,
There was blood inside the sink from broken glass,
And will this last will you say this one more time?

Yes I am, yes i am
I am nothing, I am no one, Iâ€™m not worth a single cent
Without you. without you.
I am nothing. i am no one. im not wortha single cent.

So would you cover it up.
Do you see what youâ€™ve done.
This is all that you were, and all that youâ€™ve become.
And if I fall, and if I fall,
Would you even care at all.

Would you watch this explode
To see the ambers and the coals as long as youâ€™re
here,
For me to follow,
Youâ€™ve got me on my knees.
Yes i am.

For me to follow,
Youâ€™ve got me on my knees.
Yes i am.

I am your every nightmare.
Bleeding, from your lack of sleep.
Naked, wishing I were watching.
You bathe, like a queen in heat
