Take me now
I'll show you how
To live your life like you should
Be the one
At seventeen
To kill yourself with a gun

You said you'd be there
You will be there
To make up for the things that you've done
You said you'd be there
You were never there
To make up for the things

Said Whoa-oh-oh
I can tell you how Whoa-oh-oh
You're unhappy now Whoa-oh-oh
You could be with me Whoa-oh-oh
You could be happy

Take me now
I can show you how
This life will twist you around
Be the one
At seventeen
To love the smell of the ground

My heart contains the ghost of you
Inside of me and soon you'll see
