Where'd you get that smile, happy birthday to me.
It's everything I wanted and more.
You walked in with my favorite dress,
I'm such a mess, love is all, love is all, you need.

Welcome to my party.
It's my birthday and it hasn't even started.
Maybe later we'll go dancing,
Amongst the setting of the greatest in romance yeah.

Where'd you get that smile?
'Cause it's turning me on.
I cannot wait to take you home with me.
I can't believe I'm standing here, I'm such a queer?
Love is all you need.

Welcome to my party.
It's my birthday and it hasn't even started.
Maybe later we'll go dancing,
Amongst the setting of the greatest in romance yeah.

Welcome to my party.
It's my birthday and it hasn't even started.
Maybe later we'll go dancing,
Amongst the setting of the greatest in romance yeah
