Hello Governor
A word with you today
You wanna start a revolution?
Well, I will show you each and every way
Yes, Drill Sergeant, the men are in line
If I could be anyone, anywhere today
If I could not, then I would
If I was an aero stow crate
If I could not die

Hello Father
A word with you today
God knows I can not do it alone
But I will do it each and every way
Yes, Drill Sergeant, the men are all dead
If I could be anyone, anywhere today
If I could not, then I would
If I was an aero plane
If I could not fly

You could be my friend if you wanted to, to be abused
I will hold your hand until the bitter end, and I will drag
the noose
You could be my friend
I cut, cut, cut you to the core!
