Light, I can't believe my eyes  
Sweet lullabies  
Memories deep in my  
Mind. At last I can awake  
I finally brake  
My chains of slumber

I will set free my sacred brothers  
Masters of earth and the sky  
The dance and song create the spell  
Lock the gate

Damn! It must be just mistake  
For heaven's sake  
I'm dancing between crystal  
Graves. I'm slowly going mad  
I must be dead  
Forever lonely

How can I find my scared brothers?  
Creators of earth and the sky  
The song is whist the dance is lout  
Enter

[Chorus:]  
Gates and enemies unite  
My hope os lost in time and light  
And the Dragon will fly  
Fate can never be defined  
The high lord is so proud and blind  
But the new dawn shall burn

Earth was destroyed  
Worlds were created  
Worlds for ourselves and the mensch  
The Gates connect the Gates unite

[Chorus]
