Charanga
I could dance away with you
To a secret rendezvous
And we'll sway the whole night to
The magic of Charanga

While we're dancing face to face
Oh my darling, let's embrace
We'll be drifting into space
While doing the Charanga

Back and forth we go
Our magic carpet ride
Like two birds in flight
Every now and then we glide
I just float on air like my feet had wings
What a thrill it is when the leaders sing

I'll come by you on the horse
Wave a handkerchief of course
Oh my darling when you do
I go oh so wild for you
Say you'll only dance with me
To the Charanga melody
(Repeat)
