I've done nothing wrong  
I, I'm not that strong  
I've done nothing wrong to you

And only the weak defend me  
And only the weak pretend that  
You didn't waste all that time to just leave forever  
You couldn't say you had all you want only better

I tried making sense  
I've got no defense  
I lost all pretence for you

And only the loved believed me  
And only the pure can see  
That you didn't waste all that time to just leave forever  
You couldn't say you had all you want only better

Knew what you say  
Looks behind today  
And knew what you say  
Just look the other way

'Cause you didn't waste all that time to just leave  
forever  
You couldn't say you had all you want only better  
You didn't waste all that time to just leave forever  
You couldn't say you had all and only the weak pretend  
that

You

Only the loved believed me and only the pure can see  
That you didn't waste all that time to just leave forever  
You couldn't say you had all and only the weak pretend  
that  
You didn't waste all that time to just leave forever  
You couldn't say you had all and only the weak pretend  
that
