You said it too  
It silences and freezes  
And I'm with you  
Two mis-shapen pieces  
You say that you'll never know  
What it's like to be neglected  
And you'll never feel  
How it hurts when you're rejected  
So  
They control us  
They console us  
Why do all these places hold us?  
When they rush us  
Let them crush us  
Can't we be the ones to turn it around?  
We dream of tearing them down?  
They might refuse  
But take some time to feed them  
And let them choose  
A perfect way to raise them  
You say that nobody sleeps  
Like you sleep because you're protected  
You say that all things entwine  
And that somehow we're connected  
So  
They control us  
They console us  
Why do all these places hold us?  
When they rush us  
Let them crush us  
Can't we be the ones to turn it around?  
We dream of tearing them down?  
You and me  
For a moment maybe  
You and me  
Can't we be the ones to turn it around?  
They control us  
They console us  
Why do all these places hold us?  
When they rush us  
Let them crush us  
Can't we be the ones to turn it around?

We dream of tearing them down?  
They control us  
They console us  
Why do all these places hold us?  
When they rush us  
Let them crush us  
Can't we be the ones to turn it around?  
We dream of tearing them down?  
You said that you'll never know  
What it's like to be a victim  
Just take a look at us now  
Are you sure that you can trust them?  
Are you sure that you can trust them?
