

Mesh "Little Star"

Visit "[Little Star](#)" on MotoLyrics.com

Twinkle, twinkle little star
how I wonder what you are
up above the world so high
like a diamond in the sky...
twinkle, twinkle little star
how I wonder what you are

Sometimes I wish that I had wings
and I could fly far away from here
far away from here

It's hard waking up somewhere new
and face the world of uncertainty
with a smile
all the while you're down

Little star won't you shine your light down on me
down on me

You're the angel of my restless dreams
won't you see me through another day
and I'll try not to hesitate

Feel what moves me
find the words to say I believe

Little star won't you shine your light down on me
pick me up when I loose the will to breathe
there's more to this life than what it is you see
it's what you believe

Little star won't you shine your light down on me
pick me up when I loose the will to breathe
there's more to this life than what it is you see
there's more to this life than what it is you see
(what you believe)

(...Sometimes I wish
that I had wings)

(...Sometimes I wish
I believe)
