"The World Is A Big Place"

Is this the first time
You've been alone?
Pour your heart out
All the names that hurt the most
I was like you
I guess you know
I know you'll get there
I didn't win, but I was close

The world's a big place
Don't be alone
The world's a big place
Don't be alone

All you miss in me
Is what you gave to me
All and nothing
You gave me hope from every side

The world's a big place
Don't be alone
It's not a good place
To be alone

The world's a big place
Don't be alone
