"Waiting For Someone"

Visit "[Waiting For Someone](#)" on MotoLyrics.com

There's something wrong in your face
There's too many ghosts in this place
You let them through this embrace
Like I've never been here

I just can't stay here
It isn't my place here
You're waiting for someone
Am I better than no one?

I just can't stay here
It isn't my place here
You're waiting for someone
Am I better than no one?

There's something purer than fear
The strength of the hate that was here
If I keep you safe from your tears
It still won't be enough

I just can't stay here
It isn't my place here
You're waiting for someone
Am I better than no one?
