

Mesh Stl "Little Star"

Visit "[Little Star](#)" on MotoLyrics.com

Sometimes I wish that I had wings
And I could fly far away from here
Far away from here
It's hard waking up somewhere new
And face the world of uncertainty with a smile
And all the while you're down

Little star, won't you shine your light down on me
Down on me

You're the angel of my restless dreams
Won't you see me through another day
And I'll try not to hesitate
Feel what moves me and find the words to say
I believe

Little star, won't you shine your light down on me
Pick me up when I lose the will to breathe
There's more to this life than what it is you see
It's what you believe

Little star, won't you shine your light down on me
Pick me up when I lose the will to breathe
There's more to this life than what it is you see
There's more to this life than what it is you see
It's what you believe
