Spaced out of society  
Discrimination takes it's toll  
Sinister it shall always be  
Tattering my soul

Who do they think they are  
To tell me what to do  
Pulling the plug on me  
Then they blame my attitude

Accusation, Domination, Termination  
Face what they are doing  
Manipulation, Strangulation, Confrontation  
A suspended state of being

To be or not to be  
A question in my mind  
They'll drain your sanity  
They're many of a kind

Who do they think they are  
To tell me what to do  
Pulling the plug on me  
Then they blame my attitude

Accusation, Domination, Termination  
Face what they are doing  
Manipulation, Strangulation, Confrontation  
A suspended state of being
