There in the wilderness, nothing seems to be  
Life's been such a mess, ever since I met me  
Only darkness in my dreams, an unknown entity  
A whisper is like a scream, a hoax a reality

Am I me, Am I myself, Am I I am I me, Am I myself, Yes  
I'm High

Get away from truth, it's a passion  
Hate and Love in black sessions  
Days of the past I must confront  
I get dazed so fast... a force to Reckon

My head rattles to the beat, cos I feel the spin in me  
Well it surely is a treat, you do it or you flee!  
Oh I ascend from the ground and I think I'll touch the  
sky  
But this voice keeps coming around,  
It says... I'll soon pass by!

Am I me, Am I myself, Am I I am I me, Am I myself, Yes  
I'm High
