A strong flash of light that explodes from the grey sky  
A blinding thunder shakes the earth  
An intense storm breaks the shining blue sea  
A witch of steel has descended and flying

The flap of the wings causes ruin  
Everything disappears  
The sharp wings produce a nightmare of death

It takes all, Heavy Metal Wings of Steel  
Baptism of fire, in a festival of the witch

Destruction, Heavy Metal Wings of Steel  
Annihilation,  
The world changes into a dark wasteland  
The blinding glitter of death,  
The bewitching body of steel  
There is not a way to achieve on the blazing earth  
The sea dries out, the stench of death arises  
A terrible sight to be reflected with wicked eyes

The flap of the wings gives ruin  
Everything disappears  
The sharp wings produce a nightmare of death

It takes all, Heavy Metal Wings of Steel  
Baptism of fire,  
In the festival of the witch  
Destruction, Heavy Metal Wings of Steel  
Annihilation, The world changes  
Into a dark wasteland

It takes all, Heavy Metal Wings of Steel  
Baptism of Fire,  
In the festival of the witch  
Destruction, Heavy Metal Wings of Steel  
Annihilation, The world changes  
Into a dark wasteland
