Great thunder & burning rain, now blood & metal meet
down

Riding on iron horses for the sky, pure made of golden
immortality

Kiss our swords of steel of king, united power of 3
Forces

Called back forgotten storm winds, calls back blessed
Battle fires again

[Pre-Chorus:]

Locked the black spell has been broken, now we're
back from the dead of... ,

Proudly we're returned to this ground of fire

With swords drawn held high... , all sworn the eternal
vow of... ,

When we're reborn, you know that you must pay

(Steel the might, metal the brave, iron the great / oh-)

[Chorus:]

Iron and steel and metal, the time has come, force to
fight (for us to fight)

Iron and steel and metal, kill for kingdom to come (our
fight will never end)

Raise your hands and fists high, going to ride away at
full speed

In blood I take my pure payment, the golden sword of
the vengeance

Sign our souls with axes of the rage, united power of 3
forces

Called back forgotten storm thunders, called back
Blessed battle hymns again

[Pre-Chorus]

[Chorus]

We hold up our hammer high, swing our hammer to
this ground land,

We've sworn the oath in the darkness, in the coldest
Winter night,

When the wings of fury blow through, our meeting with

fate is now,
Wings of the battle flying is now, we will never die
Together in the end...
