Like, like we know  
A show it comes slow  
Sometimes it gets you right  
Sometimes it takes control  
Another side of this time  
They wanna make you go low  
But we are too smart to fall  
We're always in control

This is how we handle our lives  
This is how we spend our time  
I just wanna be with you know  
I just want you to be mine  
Let's party and dance like superstars  
Drink all night until we lose our appetite  
This night is made for us  
And we're about to spend it right

One night I'm coming for you  
Next night you're coming for me  
We're li li li like  
A bunch of freaks that party all week  
Oh, before we know is morning  
Before we drink is boring  
We're so born for this  
We're so born to rock, rock, rock, rock

Drink in the night, feel the energy alive  
Let your body free to dance to the beat as we start a  
romance  
With the song, let your tongue to sing along  
We don't have no warning  
Yeah! We live 4 those moments

Drink in the night, feel the energy alive  
Let your body free to dance to the beat as we start a  
romance  
With the song, let your tongue to sing along  
We don't have no warning  
Yeah! We live 4 those moments

Every time we light up the night

When we party the club falls apart  
When the night is long, when we feel strong  
When the random people run out  
That's when we crack down the house  
That's when all my chicks come out  
Let's dance we're kings in the night  
We belong to party, where the hell is my crown?

When the beat comes  
When the song is done  
When we drink strong  
When our life is wrong  
Will you make a change?  
Will you take a chance?  
Will you change it all  
Or you will be small?

Let's go to Paris and London  
Party with The Queen in the house of Dundon  
Snap a pic. Suck my \*\*\*  
Conrado Dess is who you ain't fucking with

Drink in the night, feel the energy alive  
Let your body free to dance to the beat as we start a  
romance  
With the song, let your tongue to sing along  
We don't have no warning  
Yeah! We live 4 those moments

Drink in the night, feel the energy alive  
Let your body free to dance to the beat as we start a  
romance  
With the song, let your tongue to sing along  
We don't have no warning  
Yeah! We live 4 those moments

Haha!  
It's your boy, Conrado Dess, cracking down the house  
Let's go!
