I / live on / by my Spirit / in you

The supernatural expression of Christ
Is the revelation of his Spirit inside
As spoken to Nicodemus on that night
The truth from his own mouth cannot be denied
To be born again of the Spirit not flesh
The spirit lives eternally after the
Flesh has gone

Born from our mother's womb
Pro-created by two human beings
A spirit formed an eternal entity
The struggle just begins
Born into sin
To fulfil the needs of our parents
A life started only to be destroyed
By the world and it's sin

The battle has begun
With his word I will fight
Battle ready warrior
Weapons from on high

Ephesians 6 to remain alive
You need the armour provided by God
Battle for your life your eternal soul
Born once to die twice to live
