I know that it sometimes gets hard
There's not always affection
But you know that with me you are the one
And that's why I got your attention

Baby one day we'll have it all
And won't give it back
Maybe one day we'll have control

Here we go, here we go, here we go again
Let it roll to the very end
We're gonna get it, we're gonna get it
But we'll never change, never change
Never gonna change at all
So here we go, here we go, here we go again
And I know you won't regret anything
Cause one day we'll be
Right where wanna be.

So baby one day, I'm gonna give you everything
And I'll expect nothing back
And our lives and the past, well it won't mean anything.
