Visit "[Change My Life](#)" on MotoLyrics.com

You came into my life  
And I was surprise  
You hang around  
You gave me some advice

There are so many words I wanna say  
There so many thing but I thought hey

Chorus

You change my life that  
No words can describe  
When I need a place to hide  
You are ther from the start

Friendship does not end even in distance  
If your not here you know you'll always be in my  
Heart

Repeat chorus

You know you'll always be a friend  
Of mine even through miles

Repeat chorus

You change my life  
And I was surprise  
The moment you came into my life  
You change my life
