So I dream about you now and then
So I wanna kiss your lips
This hope keeps me hanging on to surreal truths

This is how I
I know that I'm not a part of your dreams
But time makes me see that it's easy for me
To pray for the truth and hope to achieve
The love that I hope to find in you

Yea ah

So I've been waiting for my time to come along
I've been praying for the chance to say
I'm meant for you

Yea ah

This is how I
I know that I'm not a part of your dreams
But time makes me see that it's easy for me
To pray for the truth and hope to achieve
The love that I hope to find in you yea

I know that I'm not a part of your dreams
But time makes me see that it's easy for me
To pray for the truth and hope to achieve
The love that I hope to find in you

Said I know that I'm not a part of your dreams
But time makes me see that it's easy for me
To pray for the truth and hope to achieve
The love that I hope to find

Said I know that I'm not a part of your dreams
But time makes me see that it's easy for me
To pray for the truth and hope to achieve
The love that I hope to find in you ohhh in you
