playing the same game  
always the wrong way  
I just can't stop doing it  
I've got no reason  
to make her feel like this  
I feel like dog piss  
I've got my head on back to front  
I want to tell you  
my reason for living  
you are my ray of sunshine  
I just can't get the words out  
I feel I've got to say  
you save those rainy days  
I've got a real friend in you  
stop doing it
