It's never quite as good
The day you left me stood
Standing on my own two feet
I've you to thank for that

Vent my spleen let it all come clean
It's busting up my guts

This one's for you
For all the things you do
You never let me down
You can be trusted

Vent my spleen let it all come clean
It's busting up my guts
You and me for history
And I know that now

Vent my spleen let it all come clean
It's busting up my life

Can you be trusted?
