Those eyes
Captivate all that I know
All I can do is gaze forever
Into slow motion I go

With you in my arms I hope to hold you close
To wisper in your ear
That I have never felt this way before
I've never wanted something more
Than to look into your eyes
And to be right by your side
Or we can lose all track of time
And I'd let your hands warm mine
And I'll listen to your voice

It's crazy how my heart beats fast
When I'm with you
I treasure each moment your here
When I'm with you I feel much better
I forget about heart ache and fear
Of being alone

Il wisper in your ear
That I have never felt this way before
I've never wanted something more
Than to look into your eyes
And to be right by your side
Or we could lose all track of time
And I'd let your hands warm mine
And I'll listen to your voice

It's crazy how my heart beats fast
It's crazy how my heart beats fast
My heart beats fast
When I'm with you.
