Lived my life and walked it alone  
All my time and my heart was my own  
For so long, yeah

I held the key to everything I'd need  
Every dream, so sure that I'd succeed  
'Cause I was strong, so strong  
I swear that it was true, till the day that I found you

Come to me, breakin' me, showin' me no mercy  
What have you done to me, baby?

Look where you are, here in my arms  
Filling my heart with your love  
But I can't get close enough to you

Got no control  
You shake my soul when we touch  
Still I can't get close enough to you, oh no

Time goes by and it grows stronger still  
With a smile I surrender my will  
I'm on my knees, yeah

Passion's taken me so far across the line  
All power of reason is no longer mine  
I'm just waitin' to please now what else can I do  
I'm forever wantin' you

Come to me, breakin' me, showin' me no mercy  
What have you done to me?

Look where you are, here in my arms  
Filling my heart with your love  
But I can't get close enough to you

Got no control  
You shake my soul when we touch  
Still I can't get close enough to you, oh no

Baby, you're the last thing that I had planned  
Got me livin' in the palm of your hand

The more I have of you the less I understand  
How you give me so much and I just never get enough

Can't get close enough, baby  
What have you done to me?

Baby look where you are, here in my arms  
Filling my heart with your love  
But I can't get close enough to you

God only knows  
You shake my soul when we touch  
Still I can't get close enough to you

Come to me, breakin' me, showin' me no mercy

Oh baby filling my heart with your love  
Still I can't get close enough to you

Come to me, breakin' me, showin' me no mercy

God only knows  
You shake my soul when we touch  
Can't get close enough to you

Come to me, breakin' me, showin' me no mercy

I can't get close enough to you, baby  
Here in my arms
