There's always somethin' new about you
Always somethin' takes me by complete surprise
Every time I see you, I see a part of you
Ooh, I've never seen before

Every day and night, the more we know each other
Every single time, the more that I discover

It's a new love, always feels like a new love
Every touch is feelin' so much
Like the very first touch
It's like a new love, yeah

I'm still excited, just talkin' to you
I'm still inspired, just walkin' next to you
Girl the way I need you, I find as time goes by
Ooh and I need you even more

And nothin' feels as good, as good as us together
Nothin' in the world, no there ain't nothin' better than
this

New love, always feels like a new love
Every touch is feelin' so much like the very first touch
It's like a new love, always feels like a new love
It's never old whenever we make love
And I can't get enough of this new love
This new love baby, yeah, yeah

We can just go on and on
Long as we keep this love
Long as we keep this love a new

Always feels like a new love
Every touch is feelin' so much like the very first touch
It's like a new love, always feels like a new
It's never old, whenever we make love
And I can't get enough of this new love
Always feels like a new love, whenever we make love
And I can't get enough of this new, this new love

Always feels like a new love, a new love

Always feels like a new love baby, whenever we make
love
And I can't get enough of this new love, this new love
baby
Oh always feels like, always feels like a new love
Always feels like a new love baby
