Our love, can last forever  
True hearts, can beat as one  
Lost souls, I've seen their faces  
Girl after the fire is gone

Torn hearts, dreams are broken  
Love shattered before their eyes  
Did they run when runnin' was easy  
Or do they know where the secret lies

We've got so much more to say  
And far too much to lose  
Girl if we try we'll find a way  
Before this night is through

Save our love, stay a little longer  
Save our love, stay a little longer, save our love

Look deep and feel the power  
Rescue love from a stormy sea  
We can reach through the distance between us  
Precious time is all we need

And a dream is not enough  
When it's not worth fightin' for  
For all we've given to our love  
Tonight we've gotta give it more

Save our love, stay a little longer  
Save our love, gotta save our love  
Stay a little longer, save our love

Save our love, stay a little longer  
Save our love, stay a little longer  
Save our love, stay and make it stronger, save our love

Save our love, stay a little longer  
We've gotta save our love, stay and make it stronger  
Stay a little longer, save our love, save our love

Save our love, stay a little longer  
Save our love, stay a little longer

Save our love, we've gotta save our love  
Save our love, save our love
