

Michael Bolton "Slowly"

Visit "[Slowly](#)" on MotoLyrics.com

Suddenly, desire fills the room
Slowly, I feel my soul consume
I'm losing myself in you
Sweetly, our lovers dance begin
Gently, I feel love brush your skin
Now I find myself in you

Heart to heart
The night has begun
Piece by piece, baby I come undone
Slowly...
You' re the sun, my universe, my every shining star
I was born to live and die right here in your arms
I want you to need me, to know you completely
There is only one way I'll make love to you...
Slowly..
Hold me, don't let this moment end
Touch me, like we'll never touch again
I look for this time with you
Oh, you're the sun, my universe, my every shining star
I was born to live and die right here in your arms
I want you to need me, to know you completely
There is only one way to make love to you...
Slowly
Heart beat to heart beat, the night has begun
Piece by piece baby, I come undone..
You're the sun, my universe, my every shining star
I was born to live and die right here in your arms
I want you to need me, to know you completely
Tonight there is only one way I'll make love to you..
You're the sun, my universe, my every shining star
I was born to live and die right here in your arms
I want you to need me, to know me completely
Tonight there is only one way I'll make love to you..
So slowly
