Now your heart is my need
And I've loved what it means to succeed
As your fate is my prize
Love your belief in me
It's what keeps me alive

Hold on till forever is gone
As so long to do whatever it takes
To go on and on and on and baby

This is the way that we live
This is the world where our dreams survive
Fight for the love that we give
Loving we make is all in the way that we live
The way that we live

In my dreams I can fly
Your arms, no earth, no skies
One truth, no lies

There's no distance between us
Just trust in our lives
Hold on till forever is gone
Hold onto whatever it takes
To go on and on and on and on, baby

This is the way that we live
This is the world where our dreams survive
Fight for the love that we give
For the love that we make is all in the way that we live
The way that we live, the way that we live

In our lives there's so much useless information
The truth is simple as the air that we breath
So many souls with the need for human affirmation
You and I choose to believe we are free

This is the way that we live
This is the world where our dreams survive
Fight for the love that we give
The paths that we take
It's all in the way that we live

This is the way that we live
This is the world where are dreams survive
Fight for the love that we give
This is the way that we live
