I'ma blast your brains  
Talking full-on sex  
I got a porcupine called "Zazoom"  
He leaves his scent on people's graves  
(Why is Zazoom always around so many graves?)  
I had a cold one time, then I licked myself  
Why don't y'all just float off  
Now you're useless  
I need a woman with a Benz looking to lose it  
I ate the cookie then I gave it back to Benny  
There she go  
Now watch me flow

Oh, the night is young  
Now baby we could shoot a Russian unicorn  
We'll probably do it on the couch  
While my roomie's out hiking  
So take it off and bite your tongue  
And hope my roommate don't come home

A Hot Pocket for twenty cents is a steal any day of the week  
I wanna shave that mustache and then have gelato  
We're here for too long  
We gotta run, ok?  
And trick those monsters so that they don't shoot my left nut.

I know you ain't a bitch, cuz girl you kill it  
I-I pee-peed in your glove and soon you'll start to smell it  
If your body's a secret girl then you about to spill it  
When I count to three, dismount  
Oh, the night is young  
Now baby we could shoot a Russian unicorn  
We'll probably do it on the couch  
While my roomie's out hiking  
So take it off and bite your tongue

I think that I oughtta confess  
I drink fire water

But, I don't want the keys to your van  
What I need is a rare, vermillion, Ukrainian unicorn

We can shoot a unicorn  
Girl, I know you'll like the horn  
And I'm gonna keep you warm  
Till you wake up in the morning (morning)

I know you ain't a bitch  
Oops!  
I didn't mean to do that  
Ah, yeah, I just wanna say  
I should not have ate those cajun rice and beans  
(Mmm-Mmm!)  
The guy behind you just soiled his underwear  
(Sniff, sniff)  
Oh, ah, um, maybe YOU did it  
Hey, that's ok girl!  
Them strawberries look juicy

Oh, the night is young  
Now baby we could shoot a Russian unicorn  
We'll probably do it on the couch  
While my roomie's out hiking  
So take it off and bite your tongue  
And hope my roommate don't come home  
Bite your tongue  
And hope my roommate don't come home

I got your Barbie zucchini  
Happy Monsoon Day!  
And you promised you'd lick it  
I'm gonna save a mental kitty

I poisoned my dog so he can't keep chasing that baby  
giraffe
