"What Is Will"

The Jones spent their whole lives
Working fingers to the bone
Now the doctor's due
And they're barely making enough
To pay the heating bill

Chorus:

So what is will...

When all you worked for is sunken filled

What is will...

1 (They can't afford the pills...)

2 (I'm asking Capitol Hill...)

3 (Nothing for the mills) end

The closed door sessions
In a gated atmosphere...
Betrayed founding fathers
In a land... we love so dear...

Almost brings me to tears
When I look at all our peers
It's just as simple... as Jack and Jill...

Chorus

(Solo)

The Jones spent their whole lives
Working fingers to the bone
Now the doctor's due
And they're barely making enough
To pay the heating bill

Chorus
