Makin' love to you  
Wasn't the right thing to do  
What a price to pay  
For the friend I could lose

Did you think you were misled  
By the words you thought I said  
When you know that I never meant to harm you

I could never be  
What you want me to be  
What a price to pay  
To lose a friend this way

Did you think you were misled  
By the words you thought I said  
I never meant to harm you  
What a price it is...  
... To pay

Gotta know?  
The way the sun shines on your hair  
I wanna be a part of you  
But I can't change what isn't there

Baby don't push it, don't force it  
Don't make me have to choose  
Either way you know I'm gonna lose

No, I could never be  
What you want me to be  
What a price to pay  
To lose a friend this way

Did you think you were misled  
By the words you thought I said  
I never meant to harm you  
What a price it is...  
... To pay

[BRIDGE]

I tell you somethin'  
I tell you somethin'  
I'm still in love with you  
After all that we've been through  
I think we can make it  
I know I can make it to you

I can never be  
What you want me to be  
What a price to pay  
To lose a friend this way

Did you think you were misled  
By the words you thought I said  
I never meant to harm you  
What a price it is...

I can never be  
What you want me to be  
What a price to pay  
To lose a friend this way

Did you think you were misled  
By the words you thought I said  
I never meant to harm you  
What a price it is...

I can never be  
What you want me to be  
What a price to pay  
To lose a friend this way

Did you think you were misled  
By the words you thought I said  
I never meant to harm you  
What a price it is...  
No...
