

The Contingency Plan "Mistake"

Visit "[Mistake](#)" on MotoLyrics.com

Love's always been such a hard word to
Use what I feel when I'm around
You give it to me, if that what you choose
In my heart there's a feeling, only one way to lose

Why stay with me, when I'm such a loser
Whirlwind emotions and I'm growing closer
One rainy day, a love rollercoaster
And one sunny day, you begging, I chose her

And I made a mistake
Now your heart will break
Didn't mean to make you sad
You were the best I'd ever had
And I want you to know
You don't have to go
Just cause I'm a star
I'm not going that far
I saw you again at another punk rock show
Forming questions, ever so slow
Will you have me again, will I ever know
Talk to me again, that's all I really want though

Am I moving too fast
Cause I want this to last
Place a ring upon your hand
Let's blow this popsicle stand
