Now that I've hit the bottom  
You've taken everything from me  
You never really listened  
You'll never hear again from me  
I've never been this down before  
You've never understood  
I've never been this down before  
And I've never felt so good

Abandon ship, cause I'm going down  
You can jump first, cause I'd rather drown  
These restless nights, under this brilliant sky  
Is it too late to ask for a kiss goodnight?

You're trying to remember  
I'm dying to forget  
You said this was forever  
But those words I regret  
What happens when I'm not around  
Do you ever think of me?  
Burn my heart onto the ground  
Until there's nothing left of me  
This plane's gonna crash straight into the ground  
No one to stop me, now that you're not around  
I can't turn back now, after what you have done  
You stole my parachute, and I only had one

"I love you" never holds its meaning  
When you look for greener pastures  
You've got your memories; you've got your pictures  
So have you found all your stupid answers?

One day I'll stop breathing  
And one day you'll believe in me

Believe in me
