We can walk away  
But I turn my head to see if you would stay, baby  
We can love the day  
Then I'm hoping that we throw those stones away

Baby, yeah

Baby, don't you leave me standing here  
Why you leave me standing here  
Now you got me here in tears  
Hold me

Hold me tonight  
Spread your love tonight  
It's gonna be all right  
Everything will be just fine  
In love with me tonight  
Tell me it's gonna be just fine  
It's gonna be all right  
Say it's gonna just fine  
Everything's just fine  
Everything will be just fine

All right

She wrote me a letter, it's burning in my heart  
She's setting me free (She's in the dark)  
Whisper in the dark, save me from these thoughts  
Un-break my heart  
Don't you let it fall apart

Please stay this way  
Don't you run away  
I got premonition (I used to dream)  
Ooh girl, it burns just like the sun

Hold me tonight  
Spread your love tonight  
It's gonna be all right  
Everything will be just fine  
In love with me tonight

Tell me it's gonna be just fine  
It's gonna be all right  
Say it's gonna just fine  
Everything's just fine  
Everything will be

Wake me up when all this is new like morning  
Girl, your smile always makes me cry  
(If you think you're gonna)  
Just hold me, kiss me, touch me  
(Stay with me tonight)

All right, it's all right  
All right, it's all right  
It's all right, all right with me

It's all right, all right  
It's all right, all right with me  
It's all right, all right  
It's all right, all

All right, it's all right  
All right, it's all right  
All right
