She got your number
She know your game
Look what your under
It's so insane

Since your seduced
How does it feel
To know that woman
Is out to kill

An overnight stand is like takin' a chance
It's not about love and romance
And now you're gonna get it.

Every hot man is out takin' a chance
It's not about love and romance
And now you do regret it

To escape the world I've got to enjoy that simple dance
And it seemed that everything was on my side
(Right on my side)

She seemed sincere like it was love and true romance
And now she's out to get me
And I just can't take it
Just can't break it

Susie got your number
And Susie ain't your friend
Look who dug you under
Seven inches in
Blood is on the dance floor
Blood is on the knife
Susie's got your number
And Susie's says is right

She got your number
How does it feel
To know this stranger
Is out to kill

She got your baby

It happened fast
If you could only
Erase the past

An overnight stand is like takin a chances
It's not about love and romance
And now you're gonna get it

Every hot man is out takin' a chance
It's not about love and romance
And now you do regret it

To escape the world I got to enjoy this simple dance
And it seemed that everything was on my side
(Right on my side)

It seemed sincere like it was love and true romance
And now she's out to get me
And I just can't take it
Just can't break it

Susie got your number
And Susie ain't your friend
Look who dug you under
Seven inches in
Blood is on the dance floor
Blood is on the knife
Susie got your number
And Susie's says is right

Susie's got your number
Susie ain't your friend
Look who dug you under
She dug seven inches in
Blood is on the dance floor
Blood is on the knife
Susie's got your number
And Susie's says is right

It was blood on the dance floor
(blood on the dance floor)
It was blood on the dance floor
(blood on the dance floor)
It was blood on the dance floor
(blood on the dance floor)
It was blood on the dance floor
(blood on the dance floor)

And I just can't take it
The girl won't break it
Ooo...
