Uh, hee, hee
Uuh, hoo, hoo, hee
Uh, hoo, hoo, hee, uh
Ah, chigga, chigga

You know I can't be away from you, girl
You've got me shaking
I'm in love of all the things you do, girl
My body is aching

Come on baby, get up and rock
Get to the real burn
Without your heart to me
The night will let me set you free

Our love will shine at the dawn of a brand new feeling
Just take your time, now you see that the, the magic's
on its way
Girl, if we try, we can send all our senses
(We will)
We will pass the day
You know I've got the hots tonight, night, girl
(Girl, hee, hoo)

I've got a heart beating just for you, girl
You've got me shaking
I tried all but I can't get you, girl
My body is aching

Come on baby, get up and rock
Get to the real burn
(Rock it, baby)
Without your heart to me, the night
Will let me set you free
(Let me set you free, girl)

Our love will shine at the dawn of a brand new feeling
Just take your time, now you see that the, the magic's
on its way
Girl, if we try, we can send all our senses
(We will)
We will pass the day

You know I've got the hots tonight
(Tonight, girl, girl)

Baby, the love that is waiting inside your temper
(Hoo, hee, hee, hee)
Show me the passion I feel with the body at your side
(Oh, girl)
This is the time to discover the dream we live in
(Hee)
Girl, can't you feel it? Time will be the only life
(Aow, ooh, hee)
Don't you know?

Our love will shine at the dawn of a brand new feeling
Just take your time, now you see that the, the magic's
on its way
(Ah, magic's on it's way)
Girl, if we try, we can send all our senses
(Take your time, we will)
We will pass the day
You know I've got the hots tonight

Our love will shine at the dawn of a brand new feeling
(Girl, girl, girl, yeah)
Just take your time, now you see that the, the magic's
on its way
(Take your time, take your time, girl)
Girl, if we try, we can send all our senses
(We can try, we can try, we will)
We will pass the day
You know I've got the hots tonight

Our love will shine at the dawn of a brand new feeling
(No other, no other)
Just take your time, now you see that the, the magic's
on its way
(Take your time, take your time)
Girl, if we try, we can send all our senses
(Time, aha, we will)
We will pass the day
You know I've got the hots tonight
