"Music And Me"

We've been together for such a long time now
Music, music and me
Don't care whether all our songs rhyme
Now music, music and me

Only know wherever I go
We're as close as two friends can be.....
There have been others
But never two lovers

Like music... music and me

Grab a song and come along
You can sing your melody
In your mind you will find
A world of sweet harmony.....

Birds of a feather, will fly together
Now music, music and me
Music and me-----
