Sister don't read
She'll never know
What about love?
Living a Christian soul

What do we get?
She runs away
What about love?
What about all I pray?

Go through the words
She knows the
What about life?
Living is all I see

What will you get?
Things she will say
What about love?
That's all I pray

Those abortion papers
Signing your name
Against the word of God

Those abortion papers
Think about life
I'd like to have my child

Sister confused
She went along
What about love?
What about all I saw?

Biding her time
Reading the words
Singing a song
Citing the Bible verse

Father's confused
Mother despair
Brother's in curse

What about all I've seen?

You know the lie
You keep it low
What about heart?
That's all I've thought

Those abortion papers
Signing your name
Against the word of God

Those abortion papers
Think about life
I'd like to have my child

Those abortion papers (ooh!)
Signing your name
Against the word of God

Those abortion papers
Think about life
I'd like to have my child

Look at my words
What do they say?
Look at my heart
Burning is all heartbreak

What do you get?
What do you say?
What about love?
Feel my...

Those abortion papers
Signing your name
Against the word of God

Those abortion papers
Think about life
I'd like to have my child

Those abortion papers (ooh!)
Think about life
I'd like to have my child
Ooh!

Who have the grateful?
Where will she go?
What will she do?
Don't read the word

Sister don't know
Where will she go?
What about love?
What about all I saw?

What will you get?
People confused
Double deceit
It's just the things I do

Those abortion papers
Signing your name
Against the word of God

Those abortion papers
Think about life
I'd like to have my child

Those abortion papers (abortion paper, hee-hee)
Those abortion papers
I'd like to have my child (hee-hee)
Those abortion papers (hee-hee)
Those abortion papers (hee-hee)
I'd like to have my child (hee-hee)
Those abortion papers (hee-hee)
