"Talk With You"

If You (God) do really exist
You can hear me begg
This one little human being here
Wants to talk with you, step forward and ahead

You gave me a life
Now show me how to live with it
Because I'm all lost in directions
And I need your help

If You truly are there (Beyond the Heaven)
Answer to my prays, would you please
On my knees, waiting it so thirsty like
(I) haven't been drinking in years

If You (God) do really exist
You can hear me begg
This one little human being down here
Wants to talk with you, step forward and ahead

You gave me a life
Now show me how to live with it
Because I'm all lost in directions
And I need your help

Lord, all my life I've been owned to you
Not an single word against yours
Lord, all I've tried is live under your eyes
And been a good boy

But you have seen me
(All the time)
So you know, that I've fallen as well
(So forgive me)

If You (God) do really exist
You can hear me begg
This one little human being here
Wants to talk with You, step forward and ahead
I need to talk with You
I need to talk with You

Just to talk with You
