Intro

People all over the world are the same everywhere I go
I give in to this, I give in to that
Every day it bothers me so

1st Verse

Am I in a bad situation
People taking me to the extreme
Am I being used
I just need a clue
I don't know which way to go

Bridge

So I took my problems to a doctor
So he could check it out, he don't know
Took it to a palm reader so she could
Read my hand, she don't know
Five minutes later, I started to understand
I started screaming, shouting, and acting mad
No one could help me but myself
But I gave everything I had

Chorus

It's things I do for you in return do the same for me
It's things I do for you in return do the same for me

2nd Verse

Always wanting something for nothing
Especially what they don't deserve
Reaching in my pocket
I just got to stop it
Even though they got a lot of nerve

Bridge

So I took my problems to a doctor
So he could check it out, he don't know
Took it to a palm reader so she could
Read my hand, she don't know
Five minutes later, I started to understand
I started screaming, shouting, and acting mad
No one could help me but myself

But I gave everything I had

Chorus

It's things I do for you in return do the same for me

It's things I do for you in return do the same for me

Chorus

It's things I do for you in return do the same for me

It's things I do for you in return do the same for me
