By michael mcdonald and bernie chiaravalle

Day by day  
One by one  
They plant the seeds of doubt  
But far too many have come this far  
For me to turn back now

Chorus:  
I wanna build upon it

One by one  
We must believe a change will come somehow  
Cause far too many lay down their lives  
For me to give up now

Chorus:  
I wanna build upon it

Bridge:  
One world we leave behind  
One truth that lights the way  
This dream depends upon how we live today

Chorus:  
I wanna build upon it...
