Throw my heart away
'Cause I'm a fool
I just can't say goodbye
'Cause I need you

After all of this time
You think I would've gone blind
From workin' myself like I do

[Chorus]
From rhapsody to catastrophe again
A step from the edge
A fairytale to a night in jail again
A step from the edge

Hold my head up high
And look at you
I just can't get it right
What can I do, yeah

And although I could see
There's a cloud over me
While my tongue is still *??* ~ unsure

From rhapsody to catastrophe again
A step from the edge
A fairytale to a night in jail again
A step from the edge

From rhapsody to catastrophe again
A step from the edge
A fairytale to a night in jail again
A step from the edge

[Music]

(Oh!) there's a cloud hangin' over me
(Oh!) this cloud ain't stoppin' me
(Oh!) *??* nothin' stoppin' me

From rhapsody to catastrophe again

A step from the edge

A fairytale to a night in jail again
A step from the edge

From rhapsody to catastrophe again
A step from the edge
A fairytale to a night in jail again
A step from the edge

From rhapsody to catastrophe again
A step from the edge
A fairytale to a night in jail again
A step from the edge" oh yeah
A step from the edge
