Been talkin' to myself for hours now  
But I don't feel alone somehow  
And there's this bright light in the distance  
And it's a dark night in this instance

[Chorus]

But you said you'd never leave me  
But some things are never easy  
People walk beside you and fall half along the way  
'Cause good things never last  
Forever  
Forever

And there's something out there waiting for me  
somewhere  
But there's still so many miles for me to go  
And the sun keeps on risin'  
I can see it on the horizon

But you said you'd never leave me  
But some things are never easy  
People walk beside you and fall half along the way  
'Cause good things never last  
Forever

Is it all that it seems  
Just another look back on shatter your dreams  
I'm not  
No I'm not gonna wait foreverâ€¦!

Well you said you'd never leave me  
But some things are never easy  
People walk beside you and fall half along the way  
'Cause good things never last  
Forever

This good thing will last  
(Forever)  
This one thing will last  
(Forever)  
This one thing will last

(Forever)  
This one thing will last  
(Forever, forever, forever, forever)
