I could fly into your eyes  
That sweet stare could take me anywhere (anywhere)  
I was just a bird with no place to land  
'Til you opened your heart and you brought me there  
(there)

Said if you could understand me, I could understand  
you  
What am I afraid of, please don't let it get to you  
Feel my conscience risin' over my tongue  
Gotta ride this wave while I'm still young

[Chorus]  
I've been stuck inside myself for too long  
You are where I belong  
And if I run  
Let me catch my breath until the fear is gone  
Life without you would be like music without a song

\*I felt safe as I said a lie\* ~not sure of this line~  
Now we're too close to anyone (anyone)  
You pulled me in and saved my life  
Could've drifted right into the sun

Said if you could understand me, I could understand  
you  
What am I afraid of, please don't let it get to you  
Feel my conscience risin' over my tongue  
Gotta ride this wave while I'm still young

I've been stuck inside myself for too long  
You are where I belong  
And if I run  
Let me catch my breath until the fear is gone  
Life without you would be like music without a song  
yeah

And I can't live  
And I can't fly  
Without you

[Music]

Gotta ride this wave while I'm still young

I've been stuck inside myself for too long

You are where I belong

And if I run

Let me catch my breath until the fear is gone

Life without you would be like music without a song

But I can't live

But I can't fly

[Music]

I can't live

I can't fly

Without you, without you, without you

I can't live

I can't fly

Without you
